Recognition of Carranza Form of Government Gives Free Way For Atrocities

(By Associated Press.)
DOUGLAS, Ariz., Oct. 29.—Carlos Randall, the Villa governor of Sonora, is reported to have proclaimed that the Vistas will not be responsible for American lives, since the United States has recognized Carranza. There are thirty Americans at Cananea and eighteen at El Tigre. Some of the Americans have been arrested and are believed to be facing a critical situation.
Urbalejo, a Yaqui chief, has demanded \$25,000 from President Randolph of the Southern Pacific railroad in Mexico, under threat to destroy the company's property. Five thousand additional Carranzistas will reinforce General Calles at Agua Prieta, where the Vistas are expected immediately. The American troops with 16-inch guns are in readiness in the event the Villistas attack Douglas. General Johnston is expected to take personal charge of the United States forces at Douglas.

LIEN AND ATTACHMENT CASES ARE BROUGHT

An attachment suit was filed late yesterday evening by W. B. Davey against the Williams Gold Mountain Mining company. The plaintiff sues for about \$450 for wages. The Williams company was engaged in operating a quartz mill at Bonnie Claire until several months ago, when it was closed down under a mortgage foreclosure action in which all of its property was sold. There is another action pending against the company wherein one J. R. Young for himself and another claims about \$2500 due for labor. Liens were filed in that case. In both actions the mortgage is attacked as void. B. J. Henley of Goldfield owned the mortgage at the time of the foreclosure and he, together with a number of others, are made defendants in the lien suits. H. R. Cooke and William Forman are attorneys for plaintiffs in both cases.

Vertical Lines Established Between Tonopah Extension and Cash Boy Co's

The apex suit of the Tonopah Victor against the Tonopah Cash Boy Consolidated and the Cash Boy Consolidated mining companies, filed shortly before the Victor was taken over by the Tonopah Extension Merger, has been compromised and settled, and the action dismissed of record. It appears that prior to the reorganization of the Cash Boy, a deed for certain ground was received from the Victor company and an agreement was made whereby the Cash Boy fixed a certain vertical boundary line and promised to execute a deed for extra-lateral rights north of that line, to the Victor company. Subsequently, on demand for the deed being made, a dispute arose as to the construction of the agreement and the Cash Boy refused to execute the deed except on condition that the Victor deed to the Cash Boy all extra-lateral rights of the Victor, south of such vertical line. The Victor refused and at once filed suit for specific performance and later Mr. Ross and the Extension management had a conference and as a result a deed was executed by the Cash Boy Consolidated and the Tonopah Cash Boy Consolidated to the Extension company as demanded by the Victor company in the litigation. The suit was dismissed and the two companies are proceeding in harmony in opening up the section where the recent ore find was made. H. R. Cooke was the attorney for the Victor company in the suit, and George B. Thatcher and Pierce, Critchlow and Barrette, of Salt Lake represented the defendant companies.

FORAGE CROPS ARE ABUNDANT IN FRANCE

(By Associated Press.)
PARIS, Oct. 29.—Senator Jules Meline, former president of the cabinet, presiding at the annual meeting of the Agricultural Assembly, presented statistics showing that the potato and forage crops this year are so abundant as to compensate the shortage in wheat. The excess of hay produced over other years will enable the feeding of enough live stock to make up for all the necessary qualifications of meat for the army. "The culminating point in the meat crisis," he says, "will come after the war when all the belligerent nations will have pressing needs with reduced means of production. Consequently the forage crop means quite as much to France as its production of wheat."
